## TKFD

## TKFD – comparable performance as the MKF but even more compact

- High filter capacity through integrated preliminary separator.
- Ideal in confined spaces installable under work tops or integratable in machines.

Extraction unit	Α	В	С	D	E	F	G	Н
	30– 335	6300- 21000	230/50–60	0,45–1,20	56–67	490x380x620	ca. 30	LED/ Display
A Air Volume max.	(m³/h)		D Power	Input (kW)		G Weight w/o	Filters (kg	a)
A Air Volume max. 3 Vacuum max. (Pa				Input (kW) Pressure Leve	el 1m (dBA)	G Weight w/o H Control Boa		

## Applications:

- Marking lasers
- Small welding applications
- Small laser trimming (foils, synthetic material)
- Soldering fumes/ SMD production
- Fine particles/fumes
- Solvents/adhesive vapours
